5th AOHUPO MPI Workshopのお知らせ

AOHUPO の Dr. Max Chung Ching Ming から、5th AOHUPO MPI Workshop の案内が来ましたので、皆様に転送させていただきます。 (平野 久)

Dear colleagues,

It is my pleasure to send you the invitation by Prof Y.-J Chen, President of Taiwan Proteomics Society, to attend the 5th AOHUPO MPI Workshop. This will be held in Taipei from June 19-20, 2009. We hope you will pass this information to all your society members, and encourage them to attend this exciting workshop. Of course we look forward to seeing you there too.

Best regards,

Max.

Invitation letter

***5th AOHUPO Membrane Proteomics Initiative Workshop.***

June 19-June 20. Taipei, Taiwan

Important dates:

1. Deadline for abstract submission: May 19.
2. Deadline for early-bird registration: May 26.
3. Conference: June 19~June 20.

Dear AOHUPO members:

On behalf of the organizing committee, I am pleased to welcome you to join the 5th Workshop for Membrane Proteomics Initiative

(MPI), a flagship project initiated by Asia Oceania Human Proteome Organization (AOHUPPO). The project aims to develop technologies for comprehensive profiling and to stimulate the application of membrane proteomes. With the success of technology development in Phase I, the MPI is beginning to contemplate Phase II for potential applications of membrane proteomes.

In conjunction with the MPI, the Taiwan Proteomics Society is honored to host the 5th MPI workshop on June 19 and a following-on 1 day International Proteomics Symposium. To make the twinning cohesive, Taiwan Proteomics Society has designated the enabling technical advances in membrane proteomics and their applications as the main theme of *2009 TPS International Proteomics Conference and 5th AOHUPPO Membrane Proteomics Initiative Workshop*. We aim to put together an exciting scientific program addressing how recent progress in quantitative shotgun proteomics and modification analysis can collectively advance the frontiers of membrane proteomics.

The event will be held in Academia Sinica, Taiwan. For more information, please visit [www.proteomics.org.tw](http://www.proteomics.org.tw). Please register on-line on the website.
